- Goal-oriented & self-motivated.
- Progressive experience of development.

SKILLS

AI TOOLS

PROFILE

Skilled in full-stack development with a strong passion for learning, specializing in custom application development across multiple projects.

Customer-oriented with a structured approach, focused on quality, performance, and maintainability.

Goal-oriented, self-motivated, and highly adaptable, committed to successful project outcomes and effective teamwork in both large companies and small teams.

WORK EXPERIENCE

Engineering Lead

JUN 2023 – PRESENT

Persistent Systems

Handled comprehensive requirement gathering, effort estimation, and task allocation, while managing team workflows and client communications.

- Engineered and optimized complex SQL queries and stored procedures to significantly enhance database execution speed and system performance.
- Developed custom UI controls to enhance user experience. Built new APIs by extending existing system functionality.

Technical Lead

APR 2022 – MAY 2023

HCL Technologies

Led migration matrices decoupling single-tier operational systems into structured distributed REST architectures.

- Designed and implemented database structures to support new modules.
- Migrated critical legacy modules into scalable Web APIs. Developed modules with improved UI for better usability.
